

ARTISAN EXCHANGE

Step away from the mass-produced and into a world of creativity and purpose! In *Artisan Exchange*, you'll craft intentional, upcycled woodwork pieces that celebrate individuality and meaningful design. Working alongside the *Revamp Revolution* project, you'll share skills, learn new techniques, and breathe life into The Mill's outdoor communal area – not just by creating new works, but by repairing and restoring existing treasures. Together, we'll revive, reimagine, and rejuvenate a space where community can gather and belong.

Term 1

Theme: Sustainable Futures

What You'll Be Doing:

- **Collaborating with The Mill and Building Organisations:** Learn from professionals and work with recycled timber to create unique products.
- **Crafting Personal and Community Items:** Make a range of wooden products for yourself and others.

What You'll Gain:

- **Build Skills:** Hone your woodworking chops and master the art of upcycling.
- **Build Confidence:** Boost your self-assurance through hands-on projects and creative flair.
- **Build Stuff:** Revel in crafting cool, meaningful items that make a difference.

What We'll Create:

- **Functional Wooden Pieces:** Build works that enhance The Mill's outdoor communal area - transforming it with handcrafted seating, decor, and restored features that reflect creativity, sustainability, and community pride.
