

SONGSMITHS

Love music and ready to make it your own? This is your chance to dive into songwriting, explore your chosen focus area, whether performance, lyric writing, instrumental, or digital composition and bring your musical ideas to life. Along the way, you'll collaborate with peers, learn from mentors, and refine your craft. Together, we'll record and share original works, proving that music is storytelling at its most powerful.

Term 2

Theme: Creative Futures/Digital Futures

What You'll Be Doing:

- **Explore Songwriting Tools:** Experiment with composition, lyric writing, performance, and digital production to shape original works.
- **Professional Connections:** Connect with local musicians, recording artists, and industry professionals to deepen your craft.
- **Strength Through Connection:** Work with peers to draft and polish songs, preparing them for recording and sharing.

What You'll Gain:

- **Creative Confidence:** Build skills in self-expression and storytelling through music.
- **Technical Expertise:** Develop practical abilities in composition, theory, recording, and performance.
- **Industry Insight:** Gain exposure to professional pathways and collaborative practices in the music world.

What We'll Create:

- **Collaborative Album Launch:** Record and present your original songs in a shared album and public showcase.
